# ANOTHER WIN FOR ALUMAWOOD PATIO COVER ON DIY NETWORK - TURF WAR

Alumawood® Newport solid roof patio cover is featured on the DIY Network show, Turf War. The show is about two neighbors battling to win a prize of \$5,000 cash with \$2,500 worth of Craftsman Tools, and the title of Best Yard on the Block. Ahmed Hassan hosts Turf War and leads two teams of landscape experts to transform the two neighbors' yards into spectacular outdoor spaces. Ahmed, with input from other neighbors, decides who has the better yard.

With another win for an Alumawood® product, Alumawood® is now undefeated on Turf War. For this episode, a 15' x 20' Alumawood® Newport patio cover was installed to transform a vacant yard into an expanded and usable living space. A cooling fan with lights was also installed on the Alumawood® Newport solid roof patio cover.

The Newport solid roof patio cover provides the best protection against the elements. An all-weather structure, it is best for customers who want a completely shaded area that is protected against precipitation.

We give another big thanks to California Patio for installing Alumawood® Newport patio cover and for creating more living space for the Bekdal's growing family.
